

WIPO Academy Distance Learning Courses

Introduction

All eLearning courses offered by the WIPO Academy can be found on the course catalog at <https://welc.wipo.int>

The courses offered are subject to change at any time without prior notice.

Prior to Registration

All potential users of the WIPO Academy eLearning courses must first register with the WIPO Accounts. The aim of the WIPO Accounts is to enable users (learners) to create and update authentication credentials required to access WIPO web applications, including the Academy's eLearning Platform (WeLC), information resources and services accessible from the Internet.

The main advantage of registering with WIPO Accounts is that the user will maintain the same single username and password for accessing all future Academy eLearning courses.

Registering for an account with the WIPO Accounts is a simple process. The only constraint being that each user needs a unique email address.

You can create an account with the WIPO Accounts via the Academy's eLearning Platform (WeLC) <https://welc.wipo.int/> as part of the course registration process.

IMPORTANT

In order to protect the integrity of your personal student profile, please remember to **LOG OUT** of the WeLC when you leave the eLearning platform and then **close** your browser. This is especially important if you are using a shared computer in a network environment.

Follow the link to registrations: <https://welc.wipo.int/acrp/program/dl?cid=DL101ESS19>.

WIPO Academy - [DL] Distance Learning Program

E-Learning platform for IP courses at basic and advanced levels in up to seven languages

Since 1999, we have been offering distance learning courses, covering all aspects of intellectual property (IP), to both professionals and those new to the field.

We are the only institution offering online IP courses in up to seven languages.

Interaction between our students and faculty of renowned academics from universities worldwide, takes place online through forums and e-mail.
